* Read and trace.

The rain falls from the sky. Water goes to the sea, rivers and the earth. The sun warms the sea and earth and the water becomes gas. It goes into the sky. This is called "evaporation". Then the water comes together to make clouds. This is called "condensation". The wind blows the clouds. When the clouds become very big this makes rain .The rain falls on the sea and earth and this is called percipitation. The water goes into the earth , rivers and the sea .This is called accumulation. Then the water cycle starts again.

Read and tick what Adam and his friends did.

Adam, Aser and Eyad wanted to do a research[1] on a school project. They worked for two hours to do the project[2], but they didn't finish. Aser wanted to copy information[3] from some websites[4] so they could finish early. Adam and Eyad said, "It's not right to copy information from any website. We want to find information from many websites and do our own work."

The boys met the next morning and worked for three hours to finish the project. Adam wanted to use Eyad's computer. He asked Eyad to come and write his password[5] because it is not safe to tell anyone your password. At 12 o'clock the boys were very tired[6]. Eyad wanted to work for three more hours but Adam said, "It's not healthy[7] to spend[8] too much time on the internet. It can hurt our eyes." Adam and his friends met the next day and finished their project. The boys were happy because they found new information and finished on time[9].

A balanced diet[1] is important[2]. It helps us to have a healthy body.
We need to eat a lot of fruit and vegetables. This is the biggest part of a healthy diet. Fruit and vegetables give our bodies vitamins[3].
The next biggest part of our diet should be bread, cereals[4], and potatoes. They give us fiber[5] and carbohydrates[6].
Milk and dairy products[7] give us calcium[8]. This makes our bones strong.
Meat and fish give us protein[9].
We need a little fat and very little sugar. We also need to drink a lot of water. Water helps our bodies to take[10] the nutrients[11] from the food we eat.
